

# MEDICAL EMERGENCY SERVICE UNIT

This is the Urban League of Essex County calling in conjunction with the Citizens Committee of the United Community Corporation. We are calling to solicit volunteer assistance from Negro doctors in Essex County during the current riot emergency.

As you know there are people who need Emergency services but do not know where to get them at the moment. We are, therefore, attempting to set up an emergency Medical Service Unit at the United Community Corporation's headquarters at 124 Branford Place, Room 11, Newark, New Jersey. The telephone number here is 623-7993.

We are inquiring of you as to whether or not you will be available to give any volunteer time to this program. If so, what can we count on from you - being available at our headquarters or on tap for calls?

When fully organized, this information will be given to the mass radio and tv media. You can understand, then why we need your firm commitment NOW.

Doctors will be dispatched from this office or we will call you down only in an emergency if you are on call. When you come into the City, the proper identification for free mobility to perform your services will be given to you.
